

From July 2024, NSI started publishing Industrial Production Indices by base year 2021 = 100 in accordance with the requirements of Regulation (EU) 2019/2152 of the European Parliament and of the Council for European Business Statistics and Commission Implementing Regulation (EU) 2020/1197.

INDUSTRIAL PRODUCTION INDICES IN AUGUST 2024

The Industrial Production Index increased by 0.8% in August 2024 compared to the previous month. The data are preliminary and seasonally adjusted.

In comparison with August 2023, a decrease of 2.6% was registered in the calendaradjusted Industrial Production Index.

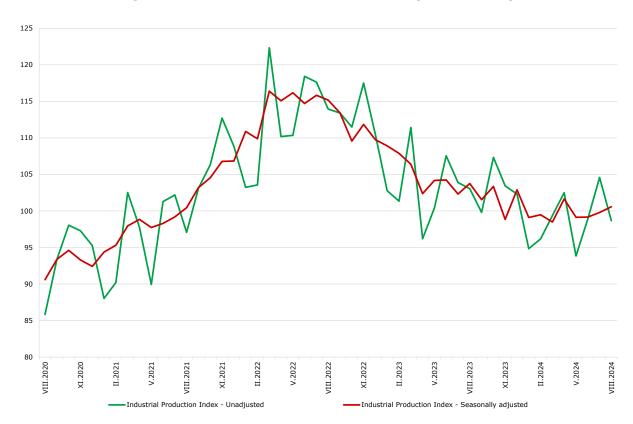

Figure 1. Industrial Production Indices (2021 = 100)

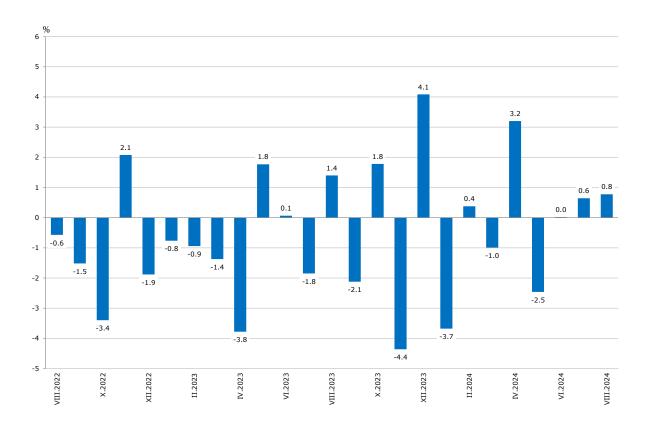

Monthly changes

In August 2024, compared to the previous month, an increase was seen in the mining and quarrying industry - by 22.1%, and in the manufacturing - by 2.3%, while a decrease was registered in the electricity, gas, steam and air conditioning supply - by 11.8%.

More significant growth in the manufacturing was reported in the manufacture of other transport equipment - by 47.0%, in the manufacture of tobacco products - by 16.1%, and in the manufacture of chemicals and chemical products - by 15.8%.

A decrease was registered in the manufacture of other non-metallic mineral products - by 9.4%, in the manufacture of paper and paper products - by 9.0%, and in the manufacture of textiles - by 8.6%.

Figure 2. Changes of Industrial Production Indices compared to the previous month (Seasonally adjusted)

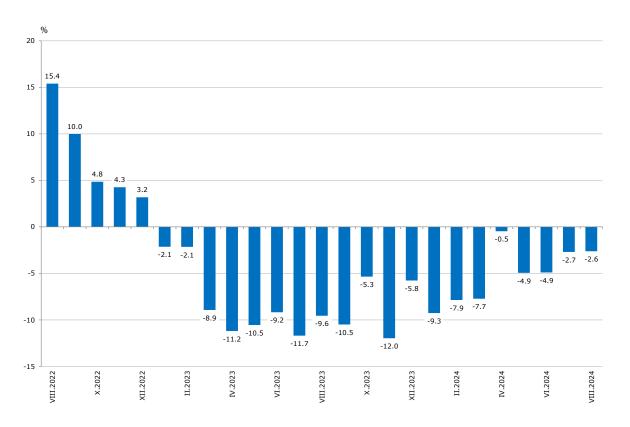

Annual changes

On an annual basis, a drop of the Industrial Production Index was observed in the electricity, gas, steam and air conditioning supply - by 10.0%, and in the manufacturing - by 1.7%, while an increase was registered in the mining and quarrying industry - by 15.3%.

The most significant production decrease in the manufacturing, compared to the same month of the previous year, was seen in the other manufacturing - by 32.1%, in the manufacture of textiles - by 24.6%, in the manufacture of leather and related products - by 21.7%, and in the manufacture of tobacco products - by 19.7%.

A growth was registered in the manufacture of basic pharmaceutical products and pharmaceutical preparations - by 20.1%, in the manufacture of chemicals and chemical products - by 18.8%, and in the manufacture of fabricated metal products, except machinery and equipment - by 15.1%.

Figure 3. Changes of Industrial Production Indices compared to the same month of the previous year (Calendar-adjusted)

Methodological notes

Monthly indices of industrial production are calculated in accordance with the requirements of Regulation (EU) 2019/2152 of the European Parliament and of the Council on European Business Statistics.

The Monthly Industrial Production and Industrial Turnover Indices measure changes in production and turnover values of industrial enterprises. This information can be used to access the current economic development and for short-term forecasts. Indices do not measure the actual production level; they aim to measure the average change in the value of production between two points in time. Indices are compiled based on information collected through a representative sampling survey on industrial enterprises. The sample covers enterprises with an annual turnover of more than 97% of the total turnover in the industry.

Industrial Production Indices are calculated at a constant base year that is to say they are weighted with the structure of the value added at factor costs in the base year.

Seasonal adjustment is a statistical method, which eliminates the seasonal component of the time series.

Calendar adjustment is an adjustment for variations caused by calendar effects, different number of calendar and working days in the months, national holidays and outliers (for example, the presence of more non-working days in May could contribute to the decline in production in some activities).

Since July 2024, all dynamic rows have been recalculated based on the 2021 base year and have been published in the IS Infostat.

Annex

Table 1 Changes of Industrial Production Indices compared to the previous month¹
