

CHARACTERISTICS OF THE CONDITION OF THE REGIONS - 2024

At the end of each year, the National Statistical Institute (NSI) of Bulgaria publishes a comprehensive set of main indicators that represent the demographic, social, and economic development of different regions in the country. The indicators cover various topics, including demographic statistics, labour market, health care, education, investment, non-financial enterprises, transport, research and development (R&D), information society, housing stock, and tourism. The data is available for the period from 2020 to 2024. For the previous years data can be downloaded from the INFOSTAT information system at the following URL: [Multi-domain statistics](#).
