## **PRODUCER PRICES IN FORESTRY - FOURTH QUARTER OF 2025**

The Producer Price Index in Forestry decreased by 8.4% in the fourth quarter of 2025 compared to the previous year (on an annual basis).

The change is a result of the decrease in both the prices of wood in the rough from coniferous - by 9.4%, and from non-coniferous trees - by 7.5%.

A decrease of 4.6% was observed also in the prices of wood in the rough in the fourth quarter of 2025 compared to the same quarter of 2024.
