

GOVERNMENT BUDGET ALLOCATIONS FOR R&D (GBARD) - 2025

In 2025, the government budget allocations for Research and Development (GBARD) amounted to 593.9 million BGN, which was 22.9% more than the previous year.

The distribution of government budget allocations for R&D by socio-economic objectives shows that the largest share (54.6%) of state support is for research aimed at 'General advancement of knowledge', which mainly includes the research carried out by the Bulgarian Academy of Sciences and by the higher schools.
