PRODUCER PRICES IN FORESTRY - THIRD QUARTER OF 2026

The Producer Price Index in Forestry increased by 1.0% in the third quarter of 2026 compared to the previous year (on an annual basis).

The change is a result of the increase in the prices of wood in the rough from coniferous trees - by 2.9%, while there was a decrease in the prices of non-coniferous trees - by 0.5%.

In the third quarter of 2026 compared to the same quarter of 2025, the prices of wood in the rough increased by 3.8%.
