CONSTRUCTION COSTS INDEX - THIRD QUARTER OF 2026

The total Construction Cost Index increased by 0.1% in the third quarter of 2026 compared to the previous quarter and by 10.2% compared to the same quarter of 2025.

The Construction Cost Index is calculated on the basis of aggregated Producer Price Indices on the domestic market for construction materials; for the production, transmission and distribution of electricity, as well as on the basis of the Labour Cost Index in the Construction sector.
