<sup>1</sup>Producer Price Indices measure the average change in the prices of industrial products, which are produced and sold by Bulgarian enterprises. They can be considered as an early measure of the current inflation process in the economy and also they can be used for international comparisons. Information for calculation of Producer Price Indices is received on the bases of monthly surveys on producer prices of industrial products, sold on domestic market and on industrial products sold on non-domestic market. Producer price surveys are based on constant sample of groups of products, and that sample is representative for total industrial production.

<sup>2</sup> Producer Price Indices on domestic market are calculated at constant base (2010) weighed with turnover structure on domestic market.

<sup>3</sup> In the text are not quoted the activities that according to the Law on Statistics are confidential and in this way they are statistical secrecy.

## 2. Total Producer Price Indices in Industry<sup>1</sup>

**Total Producer Price Index in Industry** in January 2015 decreased by 1.2% compared to the previous month. Lower prices were registered in the manufacturing by 2.0% and in the mining and quarrying industry by 0.6%, while in the electricity, gas, steam and air conditioning supply the prices rose by 0.7%.

In the manufacturing<sup>2</sup>, more significant prices decreases were seen in the manufacture of basic metals by 2.5% and in the repair and installation of machinery and equipment by 1.0%, while prices increases were reported in the manufacture of other transport equipment by 2.7%, in the manufacture of chemicals and chemical products by 2.1% and in the manufacture of computer, electronic and optical products by 1.2%.

<sup>1</sup> Total Producer Price Index is calculated from Producer Price Index on Domestic Market and Producer Price Index on Non-domestic Market weighted with the turnover structure on domestic and on non-domestic market to the total value of turnover in the base year.

<sup>2</sup> In the text are not quoted the activities that are confidential according to the Law on Statistics and in this way they are statistical secrecy.
