Methodological notes

The definitions recommended by the World Tourist Organization and the Methodological manual for tourism by Eurostat are applied by the National Statistical Institute.

In accordance with these definitions, **an international tourist** is any person who travels to a country other than his/her permanent residence for less than a year and whose main purpose is not doing any activity for payment in the place visited.

The purposes of visiting a country are the following:

- Excursion and holiday;
- Professional purposes (business trips, participation in conferences, congresses, concluding deals, etc.);
- Other (as a guest, education and visiting cultural and sports events, etc.) purposes.

Statistical data on the trips of Bulgarian residents travelling abroad and visits by non-residents to Bulgaria are obtained on the basis of monthly information received from the Ministry of Interior and a sample survey of the National Statistical Institute among residents and non-residents passing through border checkpoints.

Data on the number of trips of the citizens of the European Union are estimated on the basis of the information obtained from the Ministry of Interior and the airport authorities. Data on the number of citizens from 'third countries' are obtained directly from the Ministry of Interior.

Data on the purposes of the trips are obtained on the basis of the NSI's regular monthly sample survey of passing residents and non-residents through the border checkpoints.
