

Module 2017 Children's Health

Information on general health and limitations in activities because due to health problems is to be provided for each **child aged 0 – 15 at the time of the interview**. These questions are answered for each child in register 2 separately.

Question RC010 refers to health in general rather than the present state of health, as the question is not intended to measure temporary health problems. It is expected to include different dimensions of health, i.e. physical and emotional functioning, mental health (covering psychological well-being and mental disorders) and biomedical signs and symptoms. Any reference to child's previous or future health state should be omitted.
