1. Expectations about the enterprise future in short-term period (1 month)

Methodological notes

The survey of 'Non-financial enterprises' was carried out in August, in the sample were included 3 770 enterprises with at about 230 thousand employees. The participation in the survey was voluntary.

Census

The unit of observation is the enterprise, which carries out one or more activities on one or more locations and produces goods or services for third parties. The definition of the enterprise meets the requirements of Regulation (EC) No. 696/93 for statistical units. The data refer to the activities of non-financial enterprises carried out on the territory of the country.

The coverage of economic activities is as follows: Industry; Construction; Wholesale and retail trade; repair of motor vehicles and motorcycles; transportation and storage; food service activities; Real estate activities; Information and communication; Professional, scientific and technical activities; administrative and support service activities; Arts, entertainment and recreation, repair of household goods and other services.

Not covered by the survey are economic activities: Agriculture, forestry and fishing; Financial and insurance activities; Human health and social work activities; Education; Public administration and defense; compulsory social security.
