REPUBLIC OF BULGARIA

**CATALOGUE OF  
STATISTICAL  
PUBLICATIONS 2010**

SOFIA, 2009

Dear users,

The National Statistical Institute presents to the users of statistical information Catalogue of Statistical Publications 2010.

The Catalogue of Statistical Publications contains detailed and clearly structured information on publications issued by NSI in 2010, presented in three themes (General Publications, Population and Social Statistics, and Economy), including a title of the issue, short summary of its content, ISSN number, periodicity, type of the issue (printed or electronic), price and publication deadline.

In line with the international practice, the National Statistical Institute provides a relevant electronic version of the printed publications on CD-ROM and NSI website, as well as publications available only on CD-ROM.

The NSI website (<http://www.nsi.bg>) presents a wide range of up-to-date information about the activity of the NSI and the statistical surveys results.

In case you need more detailed information or information not available in the NSI publications and website, please contact to Relations with Users and Press-center Division.

The agreed practice of holding regular and special press conferences by the NSI Head Office and the Regional Statistical Offices also contributes towards a wider dissemination of the statistical surveys results.

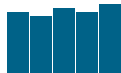

The users could also use the rich NSI library collection.

We hope that the Catalogue of Statistical Publications will be useful as a basic guide to statistical information products offered by NSI and will greatly facilitate users of statistical information.

We welcome any comments and recommendations which could contribute towards improving the quality of NSI information products and the work on their dissemination.

**Assoc. Prof. Mariana Kotzeva, PhD**

**President of the National Statistical Institute**

The issue contains detailed statistical information about the demographic state in the Republic of Bulgaria during 2009. Data on the number and the structures of the population and marriages, births, deaths, divorces and internal migration registered during the year are published in the issue. All these events are given in separate sections and are linked with the main demographic characteristics of the persons whom they are registered.

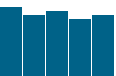

The demographic indicators for fertility, mortality, marriage and divorce rates are calculated and presented in the issue.

The publication contains time series of statistical data on the population and its natural movement for a period longer than fifty years. This gives the opportunity for in-depth study of demographic processes in Bulgaria. Data on population projections are also included in the issue.

Data on the population and demographic events are presented at national and regional level. The regional review contains data by statistical zones, statistical regions and by districts and municipalities for some indicators. The changes in administrative structure of Bulgaria during the year are reported and given in the appendix.

A chapter that contains main indicators on natural movement in other European countries is also included.

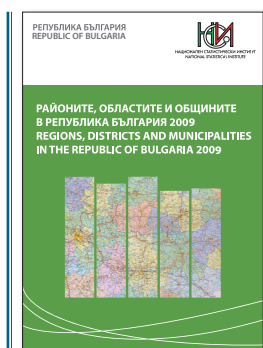

The issue contains methodological notes and an analysis on trends of the development of the population and demographic processes in the Republic of Bulgaria

The information in the issue is addressed to a wide range of users: governmental institutions, non-governmental organizations, demography experts and other customers, with an interest in trends in the development of the demographic processes in Bulgaria.

The publication contains statistical data on the development of tourism in Bulgaria. Basic statistical data for the years 1980, 1985, 1990, 1995, 2000 and the 2007-2009 period are included, as well as methodological notes.

The data are classified into five sections:

- International tourism

The statistical data on travel of Bulgarian residents abroad and on visits by foreigners in Bulgaria are obtained on the basis of monthly information received from the Ministry of Interior and from a sample survey of the National Statistical Institute among Bulgarian and foreign citizens passing the border crossing control points.

The data on the number of the trips of the citizens of the European Union are estimates based on the information received from the Ministry of Interior and the airport authorities.

The data on the purposes of the trips are developed on the basis of the NSI's regular

monthly sample survey of passing Bulgarian and foreign citizens through country's border crossing control points.

This section includes data about number of foreigners' visits to Bulgaria by country of origin, by month, purpose of visit and by mode of transport as well as travel of Bulgarian residents abroad by country of destination, by month and by purpose of visit.

- Tourism total for Bulgaria

The sources of data are statistical surveys on accommodation establishments. This section includes data about accommodation establishments by type (hotels; mountain chalets; camping sites; and other accommodation establishments), nights spent by Bulgarians and foreigners by categories of the establishments and by months, arrivals of Bulgarians and foreigners in accommodation establishments by categories of the establishments and by months, arrivals of foreigners by country of origin; persons rested by type of resort, and by duration of rest.

- Tourism by district

The section contains data about activity of accommodation establishments by districts during 2009.

- Tourism by resort

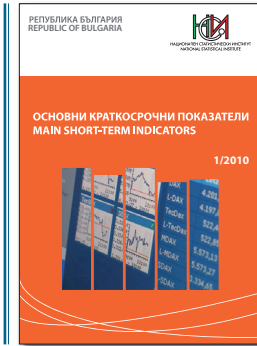

Resorts with national importance defined by Decision No. 45 of the Council of Ministers of 25<sup>th</sup> January 2005 (Official Gazette, No. 11/1.02.2005) are included in the section by resorts. The sources of data are statistical surveys on accommodation establishments. Data on resorts by type, nights spent by Bulgarians and foreigners, as well as arrivals of Bulgarians and foreigners in accommodation establishments in the respective resorts are also included.

- Tourist trips of the Bulgarians

The source of information is a sample survey carried out in the non-institutional households in Bulgaria. This section includes data on the number of private and business trips in Bulgaria and abroad; reasons for the private trips; organization of the trips; the mode of used transport; number of nights spent by type of accommodation establishments in Bulgaria and abroad and related expenditure for nights spent, food, transport, leisure and others.
